# PROJECT STATEMENT

I am asking for people to give me 3 daily tasks that I will implement into my routine for a period of 7 days. I am documenting these tasks visually/verbally. After I complete a person's 3 daily tasks for 7 days, I will do them any 1 favor of their choosing.

What interests me is exploring relationships shared between record keeping, documentation and daily life. Through this exploration I hope to gain a better understanding of myself and how daily structures work for me. I want to find small ways to be thankful for each day I am here to live. I want to improve at asking for help.

Hopefully you find nuggets within my project to latch on to, that resonate with you. I hope you enjoy flipping through the pages, and that you feel things or think things that perhaps you would not have otherwise. I hope that this project helps you, if even for a small instance, feel a bit less alone in this world.

This is my boring and amazing and desperate attempt to find meaning and rhythm in the day to day. Thanks for being here.

Stay fresh,

John
